**BEST PRACTICE 2 EXCELLENCE IN SPORTS**

It has been a glorious and distinct tradition of this college to consistently perform brilliantly in the area of sports over the years. Pertinent here to mention is that the college being short on space has found it challenging to raise sporting infrastructure for all sports and yet through some deft innovative ideas has found a way out of it by tying up with different agencies and institutions to facilitate practice environments and facilities for the athletes of the college. In this regard the college sports committee reviews the need and demands of the players with regard to individual events and acts accordingly by coordinating with various sports facility providers so as to cater to the needs of the upcoming inter-college and inter-university tournaments. Our athletes have historically played with whole-hearted effort and won championships on regular basis often out-performing major colleges with better sports infra-structure and facilities in comparison. The startling record of the college bears testimony to the fact that despite having faced limitations on space and overall availability of facilities the athletes and the administration have been able to overcome all those with innovation and management.

**BEST PRACTICE 3**

**ISSUANCE OF STUDENT ID CARDS**

In order to foster an environment of discipline, regulation and academics and keeping in view the security and safety of all college inmates, particularly women, as also to check the presence of outsiders on the campus the college administration came up with the unique idea of issuing distinct ID Cards to all students based upon each semester. It was made mandatory for all students to wear these cards during their time in the college. As such, students of 1<sup>st</sup>, 3<sup>rd</sup> and 5<sup>th</sup>sem were issued cards with yellow, red and blue bands respectively, thus making the students easily recognizable and distinguishable. These specially designed ID Cards were incorporated with a bar code scanning system making it feasible for the college authorities to access all relevant information as and when required. Mention must be made to the fact that the college is also home to the regional IGNOU center by way of sharing a part of the building and the constant inflow of outsiders called for an ingenious solution. The issuance of ID cards proved to be a cutting-edge means to that end as noticeable check was put on the entry of all unwarranted elements on the campus.
