**1.4.1: Action taken report of the Institution on feedback report**

1. From the responses of the students it was seen that maximum students gave a positive response while only few responses were not aware about the effectiveness of programmes /curriculum / teacher efficiency /evaluation etc. It was decided that these few students will be made aware of the above mentioned areas through their Mentors.
2. From the responses of the Teachers it was seen that maximum teachers are regular, punctual, completing the course syllabus in time, regularly attending FDP, using class room tools while only few do not agree for college not providing proper resources. Besides, there are few others who do not integrate course material with environment. It was decided that the few teachers may be motivated into using digital/technology while delivering lectures and doing research to find pedagogy for incorporating ways to integrate course material with environment. Also IQAC may organize FDP with this topic for such faculties.
3. From the responses of the Alumni maximum responses were found positive, they consider the course material as sufficient, excellent delivery mechanism, good potential for placements, syllabus updation and knowledge enhancement etc. for the Alumni who have found weak spots in curriculum and its delivery the IQAC members recommended to consciously update and incorporate sustainable changes for betterment of the college.
4. From the Parents positive Feedback responses it was seen that majority agreed with the counseling and guidance given by the college, remedial classes being held and reacted positively to the Teaching Learning Environment. Whereas there are parents who are also not aware of the scholarships provided by the college. It was decided that by the IQAC that efforts must be made to make parents aware of different schemes and programme by the college during the Parent Teachers Meet also during admission pamphlets must be circulated among the students and parents.
